

MEDTECH INFUSION

POMPE

Technology matured by

SATT Nord

POMPE is a sensor that enables precise, real-time measurement of the volume of product infused into a patient.

#Infusion

#Safety

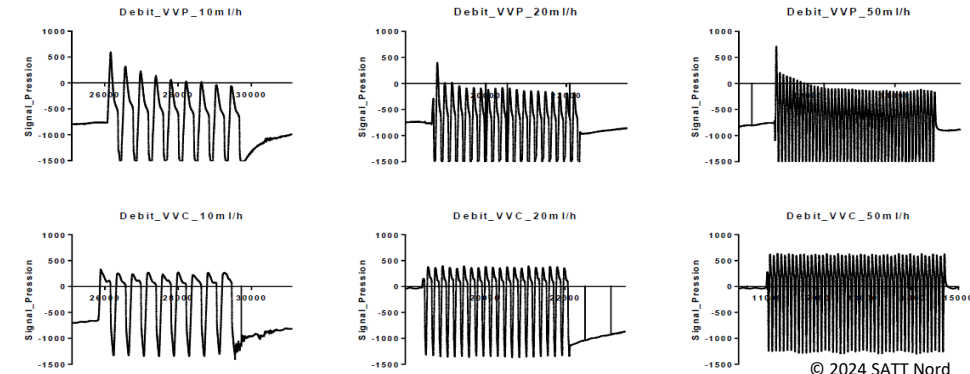

#MedicalDevice

This device complies with the following specifications:

- Precise flow measurement
- Leak detection
- Simple installation
- Low cost
- Adaptable to different pump types
- Designed in collaboration with clinicians

+ To come : Development of an OEM solution

Potential applications: Enteral/parenteral nutrition, Dialysis

Partnership : Co-development, Licencing

IP : Upcoming

TRL : 3/4
